

Accelerated Reporting Model

Simplifying financial statements preparation

The Accelerated Reporting Model supports the efficient and controlled preparation of print-ready financial statements.

With CFOs facing ongoing scrutiny in relation to the quality and timeliness of their financial statements, they need an efficient and effective process in place.

The Accelerated Reporting Model enables you to quickly and simply produce validated and consistent print-ready financial statements and supporting schedules.

By dramatically reducing compilation time, you can focus on the analysis and explanation of results being presented to key stakeholders.

The Accelerated Reporting Model allows users to go from a trial balance to full financial statements by following an intuitive and easy-to-follow process.

Customised setup

The Accelerated Reporting Model is tailored to your financial reporting requirements and disclosures.
